BADR FIBERGLASS AND ACRYLIC

History

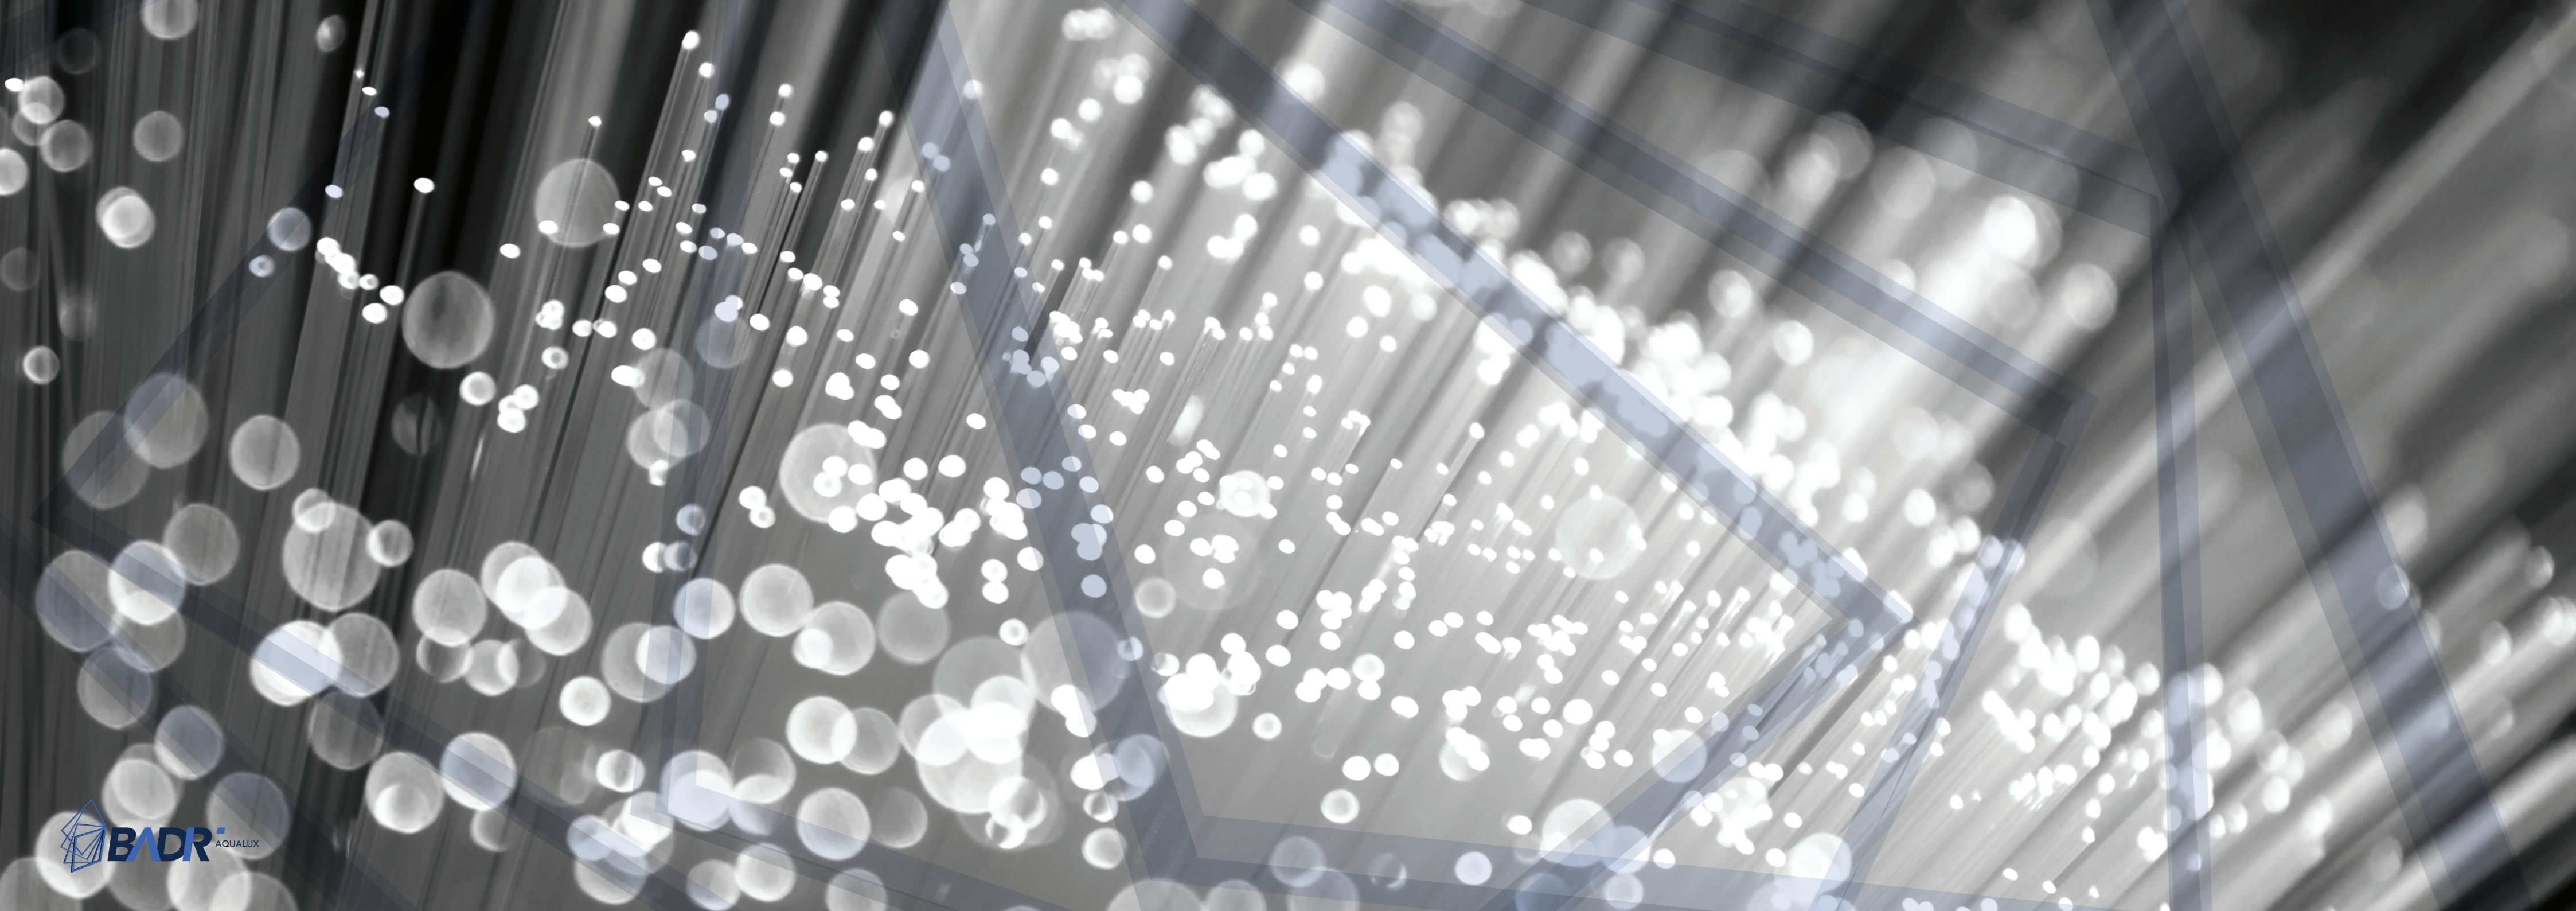

Established Badr Factory for Fiberglass and Acrylic in 1984. The factory manufactures sanitary ware made of fiberglass and acrylic. The Badr Factory for Fiberglass and Acrylics was launched in the industrial city of Jeddah, Saudi Arabia with an area of 16 thousand square meters. It is designed and equipped with international standards and the latest machinery and industrial equipment. Due to the economic and urban growth witnessed by the Kingdom of Saudi Arabia, and in order to satisfy all the needs of our customers, we have expanded to 30,000 square meters distributed between Riyadh, Jeddah and Dammam. The company is managed by Mr. Khaled Mohammed Ali Al-Harakan, who, thanks to God Almighty, has gained decades of experience in making the Badr factory a reliable and distinctive brand in the field of sanitary ware production.

Vision

To be the Saudi's leading bathroom manufacturer and retailer. To become the consumer's first choice.

Mission

We have been working for over 30 years in manufacturing bathtub and showers. We have been designing and manufacturing our own range of products. We strongly believe that we need to build trust into our relationship with our customers to keep them satisfied and gain their loyalty to our brand. We also believe, to achieve our vision, we need to continually have a true understanding of our customer's needs to provide the market with broadest selection of modern, high quality, desirable, and value for money products.
